2022

**This document provides performance data on a range of ESG metrics for the year ended 31 December 2022.**

Haleon demerged from GlaxoSmithKline (GSK) in July 2022, completing a multi-year journey to establish a world-leading, standalone global consumer health company.

This document provides performance data on a range of Environmental, Social and Governance (ESG) metrics for the year ended 31 December 2022.

Some business metrics do not use the 2022 calendar year reporting period, footnotes are included, where applicable throughout the document to indicate each data point reporting period. This includes data points where data has only been captured since demerger in of July.

<sup>34</sup> Our goal to reduce net Scope 1 and 2 carbon emissions by 100% by 2030 is underpinned by a 95% absolute reduction target. The 2020 baseline year reporting period = 1 January 2020 to 31 December 2020. Although the 2020 baseline was calculated prior to the demerger, it includes only the sites which became Haleon sites following the demerger from GSK.

<sup>39</sup> Reporting period = 1 July 2021 to 30 June 2022.

<sup>40</sup> Recycle-ready means packaging that has been developed to be compatible with a targeted existing or emerging recycling infrastructure. By recycling infrastructure we mean the state-of-the-art technology and operations capable of achieving efficient collection, sorting and processing into recycled material feedstocks

<sup>41</sup> Where safety, quality and regulations permit.
